

A-72YV

Vertical Strapping With Fixed Track

Description

Side seal strapping system with indexing head & fixed strap track.

Designed to strap & secure on pallet load with either polypropylene or polyester.

Provide pallet load good protection during transport.

Suitable for empty bottles, cans, food, beverage & logistics.

Features

- For PP & PET strap
- Commercial PLC control
- Index sealing head 250 or 400 mm stroke
- Auto detect for strap failure, short feeding & empty strap band

Options

- Top press platen
- HMI touch panel
- Variety of conveyors
- Dispenser adopts electromagnetic brake system

Specification

Arch size (W x H)	1800 x 1850 (Customize)
Cycle time	22 sec. / strap
Max. tension (kgs)	75
Strap width (mm)	9,12,15.5,19 (Specified)
Sealing method	Heating element
Sealing position	Side
Reel I.D. (mm)	203 or 406 (Specified)
Min. conveyor height (mm)	430
Power supply	220/230/380/415/440V,50/60Hz, 3PH
Power consumption (kw)	1.5
Compressed air	5 ~ 6 bars for top press platen
Layout dimension (L x W x Hmm)	4937 x 870 x 2725
